**Glossary**

There are lots of key terms we will be learning this term. Lots of the key terms are based on different art styles we will be learning about. Here are the main 3 styles we will be looking at.

**Pointillism:** Pointillism was as a development of impressionism. It was invented mainly by George Seurat and Paul Signac. Pointillist paintings are created by using small dots in different colours to build up the whole picture. Colours are placed near each other rather than mixed.

**Impressionism:** The impressionist movement began in 1860s and became most popular in the 1870s and 1880s. It differed from the common art of the time because it wasn't religious art, showing scenes from religious stories or specific events, but was just intended to capture a scene at a moment. The art gave an 'impression' of the scene.

**Surrealism:** Explored the subconscious areas of the mind. The artwork often made little sense as it was usually trying to depict a dream or random thoughts.
