

Striking and Fielding

Key Vocabulary

Under arm: Throwing the ball waist height.

Hand eye- coordination: watching the ball and hitting it.

Fielding: This is when someone catches or stops the ball in the field/ game area.

Posts: As you can see in the image to the right, each base (stop) has a post. You must run on the outside of these rather than on the inside.

Rounder: If you manage to get the whole way around the pitch without getting stumped out or before the ball is returned to the bowler, you earn a rounder/ point.

Striking: The action of hitting the ball.

Children will be focusing on the skills involved in throwing and catching and will develop these into a kick rounder's game.

Above is an example of a rounders' pitch. We will play kick rounder's in small groups.

School Games Values: The main values we will be focusing on (even though they are all important!) will be:

- **Teamwork:** Rounders is a sport where you work in teams, so children will need to learn to work as a group, listening to each other, supporting one another, and working together.
- **Respect:** Children will need to not only work as a team and support one another, but they will also need to show respect to their opposite team, keeping to the rules of the game.
- **Determination:** Children will need to develop their confidence and willingness to try new skills and tactics.

Key questions:

How did you help you help someone today?

How did you feel when...?

What did you enjoy about playing as a team?

The School Games Values
