

Netball

Key Vocabulary

Chest pass: This pass is where the ball is brought in towards the chest before then being pushed away. (see the image included).

Bounce pass: This is where someone bounces the ball (once) towards their teammate. The key is to aim in the middle of the two people. (see the image included).

Pivot: Once you have received the ball (caught it), you are unable to move from the foot you have landed on. This means you must swivel around to be able to move to pass the ball or to shoot.

Marking: This is where the opposite team will try and gain possession of the ball from the other team. You are not allowed to touch the person you are marking. (below)

Children will be focusing on the skills involved with the sport and will hopefully develop these into game situations.

Above is an example of a chest pass and below is an example of a bounce pass.

School Games Values: The main values we will be focusing on (even though they are all important!) will be:

Teamwork: Netball is a sport where you will be working in teams. It is really important to make sure all the team members feel included and are working together.

Respect: Not only do you need to make sure you respect everyone in your team, but it is also important and professional to respect the other team. We will make sure we all celebrate one another.

Key questions:

When passing what 3 things do you need to think about?

How can you mark an opponent?

How should you be stood, when receiving a ball?

How does netball make you feel mentally?

The School Games Values
